

Anthropological Art Studies

Lecturer :
Dr. Jun Kitazawa

Japanese Artist -
lives in Yogyakarta

Brown Bag FIB-UGM

Under the influence of the COVID-19, it has become difficult to move across regions and countries. In this term, we will reconsider the daily life in nearby surrounding as a field and observe it again. We will try to design an art project by connecting the phenomena found in everyday life as a field with the events that are separated in space and time. Kitazawa propose three activities of lectures, practice of skill, and laboratory activities with department of anthropology UGM.

In the first lecture, Kitazawa will introduce his projects from 2010 to 2015 when he was based in Japan, and in the second lecture, he will introduce his projects from 2016 to the present when he is based in Indonesia. We will explore the future of art projects through the practices that have been developed while transcending the borders between the two distant countries of Japan and Indonesia.

Jun Kitazawa, a Japanese artist based in Yogyakarta, will give a public lecture together with Department Antropogry of Universitas Gajah Madah.
